

We believe that Cassidy Dental is the practice you've been looking for – combining skilful technique, talent and artistry to create healthy, natural and beautiful smiles for life.

The practice was established in 1987 with a vision to provide patients with excellence, authenticity and style. We have earned an outstanding reputation over the years and are proud to attract patients from all over Northern Ireland and the Irish Republic.

We are a friendly, welcoming practice, ensuring we help all our patients 'keep their teeth for life' with a focus on prevention, rather than cure.

As well as offering general dental services we are also experts in dental implants (replacements for missing teeth) with our Principal Dentist Tom having achieved a Masters Qualification in this area. Tom also focuses on smile design, enabling you to achieve the smile you deserve, and orthodontics, straightening teeth for adults and children with a range of the latest appliances.

Our practice continues to grow primarily by word of mouth and we also treat patients from a number of other dental practices (and sometimes the dentists too!) for more specialist treatments.
